# New York Stock Market

New York, July 2.—The duliness of mid-summer settled over the stock market to-day, and such traces of speculative interest as had survived the last few days of in-creasing inertia seemed to have been com-pletely erased. Price movements were nom-inal. The market was characterized by a firm undertone, although at the opening and again at the close there was a slight yielding tendency.

again at the close there was a significant tendency.

Sentiment was inclined to be more cheerful. Crop reports, which are receiving more attention with the advent of July, were somewhat more encouraging, although fears were felt of further damage from heat in the Southwest. Money market conditions improved.

improved.

More important than either of these considerations as an immediate influence were indications of the strong technical position of the market. There was a keen borrowing demand for leading stocks, especially Union Pacific, which pointed to an oversold condition. Short covering was rendered difficult by the small offerings in sight around the present level of quotations. Operators were inclined to favor the long side of the market, but trading was on too small a scale to bring about a marked response in price movements. Changes exceeding small fractions were limited principally to specialities, a number of which including the petroleum stocks, rose sharply.

Foreign markets were depressed by disturbances in the Balkans and heaviness of the home market at the opening, which was most noticeable in Union Pacific and Canadian Pacific, was associated with the decline in Americans abroad. There was some selling here for foreign account, but the total was comparatively small, and the local market seemed inclined to break away from the foreign influence, so long a factor of restraint.

Satisfactory passing of the July settleore important than either of these con-

straint.
Satisfactory passing of the July settlements here and abroad was reflected in the easier tendency of time money for the shorter dates. The banks maintained their conservative attitude, however, in regard to putting out of money for longer periods, and six months' funds were still quoted at high rates with no offers.

Bonds were steady. The market showed some signs of investment. United States bonds were unchanged on call.

New York, July 2.—Money on call steady, highest, 2 per cent; lowest, 1%; rulling rate, 2; last loan, 2; closing bid, 1%; offered at 2. Time loans easter; skity days, 3 per cent; inhety days, 3% 64; six months, 5% 96. Prime mirroantile paper, 6 per cent. Sterling exchange easier, with actual business in bankers bills at \$4.85% for sixty days bills and at \$4.85% for demand. Commercial bills, \$4.85%, Bar silver, 58%, Mexican dollars, 48. Government bonds steady, railread bonds steady.

COTTON MARRETS.

New York July 2.—The cotton market was comparatively quiet again to-day, but prices were higher, owing to rather a more builtsh view as to the probable showing of the official condition report to morrow and more or less hervousness over the boll weevil situation. The close was steady and from \$912 points above the final figures of yesterday. The market opened firm at an advance of \$92 points above the final figures of yesterday. The market opened firm at an advance of \$92 points in response to higher cables than expected and a private crop report making the condition \$93 against a report by the same authority of \$9.5 hast month and the government's condition report of \$9.4 per cent last year. Private cables indicated that the Liverpool market had been influenced by the private crop report, and there was an active covering movement in the local market, on which prices sold about 18/16 points net higher during the early trading featizing by recent buyers checked the advance around this level, and the market later was comparatively quiet with closing prices showing reactions of a few points from the best. Reports received from New Orleans to-day stated that the boll weevil invasion, and further reports were received regarding the presence of the pest in other sections of the best. Local traders appear to find little fault with prevailing weather condition, but between the lower private condition figures and the boll weevil news there was certainly some nervousness over the new crop outlook. Reports from the ocean-freight market reiterated earlier week

Total since September 1 at all ports—Net receipts, 5.696,339 bales; export to Great Britain, 3.4.7289 bales; export to Great britain, 3.4.7289 bales; to France, 356,633 bales; to the Continent, 2.45,983 bales; to Japan, 384,979 bales; to Mexico, 13,915 bales.

New Orleans, La., July 2.—The cotton market had a good undertone to-day and prices were steadily maintained at a moderate advance. Trading was light in volume, and it was plain that the bureau reports to-morrow, the approaching holidays and the agitation caused by the Clark amendment to the tariff bill before Congress, putting a tax on cotton futures, served to restrict business. The advance was based more on a private report on condition showing a gain during June of only 4 for a point than on anything else Weather and crop reports were favorable, but caused little selling.

The opening was steady at a rise of 6911 points on good cables, which private measures as a said were due to the private condition report mentioned above. At no time during the day was there much of any selling power in evidence, and a moderate demant served to absorb the scattered offerings. In the afternoon the market was at its highest, 11614 points up. The close was steady at a net rise of 671e points. The weather map indicated that considerable rain fell over the cotton region, and the forecast promised more Crop accounts said that the plant was making good growth and was looking healthy. Bears were unable to turn these features to their advantage Spot cotton steady and unchanged, middling, 12%c. Sales on the spot 261 bales and 85 to arrive. Closing futures: January, 11.57, March, 11.67, July, 12.52, August, 12.16; October, 11.56; December, 11.56.

# If Any One

Reads this Ad. (which is longer than usual, but we can't make it shorter) who wants to own his own home, we invite him to go over to No. 1911 Stuart Avenue and take a look at that splendid home, which we will sell at a very reasonable price, on easy terms, to a desirable person.

The neighborhood is ideal. The house faces the prettiest of the small parks in the city; was built by an excellent contractor for his own home, which means that it was built right.

The price we will sell at is \$3,500 less than the former owner asked for it, and \$1,500 less than he was offered for it less than one year ago.

For a man who wants to put \$10,500 in a home, no better opportunity, in our opinion, will present itself.

It is proper to state that we are not in the real estate business, and therefore there will be no commission or brokerage for the purchaser to pay.

A chain of circumstances enables us to make this attractive offer to some man who has saved up a few thousand dollars and don't intend to be a renter all

Possession given at once.

Communicate with the undersigned.

They No Longer Are Discouraging Investments in Stocks and Bonds.

New York, July 2.—The strongest banking interests are now talking less pessimistically. They will not come out plainly and advise the purchase of stocks, but they have been quietly recommending investment in bonds, and when asked about stocks do not, as they did until recently, suggest that the market had better be left alone. The bankers, of course, were worried about money. They saw loans expanding at the rate of \$1.000,000 daily without any gain in cash. They saw also France taking gold from us at a high price, and did not know how much more might be forced from us. BY BROADAN WALL. much more might be forced from us.

Now the outlook has improved. Bank loans have been curtailed in the larger cities, and even the optimistic West has at last slackened its pace. More-over, there have been no gold shipments to either Europe or South America for

Funds have been offered more freely for stock exchange purposes, and both call and time notes have been easier. In a way, the announcement that there was a half a billion additional cur-rency for issuance helped sentiment. The volume of stock trading in June was very much heavier than last year, and the new month promises to witness a continuance of the better financial feeling.

Among traders there were fears to-day that the threatened strike of gold mines in South Africa mich.

mines in South Africa might result in a shortage of gold that would cause a rise in money rates, and this inspired selling of stocks in the last hour that imparted heaviness to standard issues and caused slight fractional losses. Final prices were slightly above the lowest.

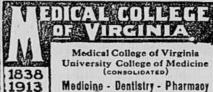

The heaviness in the last hour fol-

lowed early strength, due to the re-ceipt of excellent crop news, but toward the close speculators followed the lead of London and offered Union Pa-clic, Steel, Reading and Amalgamated Copper on a scale down. The down-ward movement served to increase en-thusiasm on the part of shorts, who seemed at the close of the market to be better satisfied with their position.

Gives Birth to Triplets.

[Special to The Times-Dispatch.]
Bristol, Va., July 2.—Triplets, a son
and two daughters, were born to Mrs.
Samuel Brooke here this week. The children lived only a few hours.
